

RTS ELECTRO

Product Overview

**-Bucharest-
-2017-**

✓ SAFE AND FAST SOLUTIONS

RTS Electro has been importing and distributing electrical and automation equipment for electrical low and medium voltage systems and grids since 2002.

✓ QUALITY PRODUCTS AND SERVICES

Using only high quality equipment, made by international manufacturers, our products are capable of dealing with any new demand or necessities in distributing electrical energy to homes, stores or even industrial manufacturers.

✓ EXPERIENCE AND QUALITY

In 2007 we established our own production department, we invested in human resources, in product development. Today we are proud of our highly qualified personnel and modern production unit where we can equip any kind of complex electrical panel.

METAL ENCLOSURES

STAINLESS STEEL AND EX-PROOF,
ELECTRONIC SYSTEM CABINETS

Founded in 1950, and rebranded in 1989, TEMPA PANO is a well known producer of electronic enclosures and cabinets for low and medium voltage systems. Using only advanced technologies, TEMPA PANO can produce a wide range of special metal enclosures, according to the client's needs and demands.

STRIP TYPE AND FUSE SWITCH DISCONNECTORS FUSE-LINKS, ENCLOSURES AND DISTRIBUTION FOR LOW AND HIGH VOLTAGE

For nearly 100 years, JEAN MULLER has been producing equipment for the distribution and transport of electrical energy. It has overpassed its competitors on the international market through experience, quality and innovation.

COMPACT EQUIPMENT FOR CONTROL AND DISTRIBUTION FOR ELECTRICAL ENERGY FOR 60, 100 OR 185 mm SYSTEMS

It's name resonates with words like innovation and performance for the last 85 years. WÖHNER is a renowned and trustworthy partner in the energy distribution sector.

ELECTRICAL SWITCHGEAR AND CONTROLGEAR FOR LOW AND MEDIUM VOLTAGE

SIGNALING SYSTEMS ACOUSTIC AND VISUAL

FILTERFANS, CHILLERS AIR CONDITIONING, COOLING UNITS FOR ELECTRICAL AND INDUSTRIAL EQUIPMENT

With a complex and complete range of electronic cabinets thermal management equipment, PFANNENBERG implemented all around the world new and innovative solutions for human safety, prolonging industrial equipment and protecting the environment.

THERMOSTATS, HYGROSTATS HEATERS, FILTER FANS FOR ELECTRIC CABINETS AND ENCLOSURES

Through its products STEGO guarantees the highest degree of protection for your electric and electronic equipment, against degradation from an uncontrolled fluctuation in temperature and humidity.

ELECTRIC ENERGY MANAGEMENT SYSTEMS AND POWER FACTOR CORRECTION EQUIPMENT

CIRCUTOR produces and delivers electrical equipment for increasing energy efficiency and quality, in over 100 countries. Amongst them: Electrical apparatus for measuring the parameters of electrical networks, network analyzers, voltage regulators, reactive energy compensation batteries.

INDUSTRIAL SOCKETS, PLUGS, PLASTIC ENCLOSURES FOR DISTRIBUTING ELECTRICAL ENERGY

Ever since its founding in 1987, IDE ELECTRIC has invested in the design and innovation of its products as well as the manufacturing process.

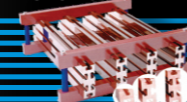

RELAYS, ENERGY METERS, SURGE PROTECTION FOR INDUSTRIAL, COMMERCIAL AND RESIDENTIAL APPLICATIONS

FINDER is an international producer of implantable and monitoring relays, timers, dimmers, energy meters and relay interface modules.

DISTRIBUTION SYSTEMS UP TO 3200A

TEMPA PANO's distribution system is based on patented copper profiles, and stand up to 3200A.

ALUMINIUM AND COPPER HYDRO-EXTRUDED BUSBARS

Under the brand name CUPONAL, HYDROSTATIC EXTRUSION Ltd., offers a unique distribution system for electrical energy.

FLEXIBLE COPPER BUSBARS

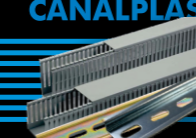

GROUP GINDRE is a producer specialised in copper profiles and components for all kinds of energy distribution systems.

POLLMANN

TERMINALS, BUSBARS
SECTION RAILS
ACCESSORIES FOR
DISTRIBUTION BOARDS

CANALPLAST

INDUSTRIAL
CABLE CANAL
DIN RAIL

WIELAND

DIN RAIL
TERMINAL BLOCKS
CLAMP CONNECTORS

ACCESSORIES

TERMO CABLES
LUGS AND LINKS
CABLE GLANDS
WIRE DUCTS

Thank you for
your time!
